

Combined Public Service Loan Forgiveness (PSLF) Form Report

PSLF Forms Submitted Between 11/09/2020 and 4/30/2022

In October 2021, the Department announced a new limited PSLF waiver that helps borrowers employed in public service make greater progress toward PSLF. Details about the limited PSLF waiver are available at <https://studentaid.gov/announcements-events/pslf-limited-waiver>. The implementation of the waiver has had a significant impact on the number of borrowers receiving forgiveness as well as the number of PSLF applications being submitted. This application report, particularly as it relates to forgiveness approvals and denials, may be more difficult to interpret and compare to prior periods due to the wide-scale eligibility changes made under the waiver. For example, borrowers who are denied for not having made 120 qualifying payments under the traditional PSLF eligibility rules, may now qualify for forgiveness under the waiver's expanded eligibility criteria, without ever having submitted a new approved application. To provide a complete picture of PSLF discharges, discharges processed under the waiver are now included in the 'PSLF Portfolio' tab of the report in addition to those discharges processed under PSLF or TEPSLF (Temporary Expanded Public Service Loan Forgiveness).

**Under the waiver process, borrowers could submit employment certification data for non-DL federal loans, but borrowers would still be required to consolidate into Direct Loans to benefit from the PSLF waiver. In these cases, the PSLF servicer will evaluate the employer for eligibility, but also advise the borrower to consolidate their non-DL loans into a Direct Loan to be eligible for PSLF. Once the borrower consolidates into a Direct Loan, the borrower will not be required to submit a new form (assuming the employer was eligible); instead, the form submitted prior to the loan consolidation will be reevaluated to ensure the borrower gets any applicable PSLF
